# 近观 Insight

In our daily experience, we interact with the world mainly through how we see, unconsciously equating 'seeing' with 'knowledge'. Without discernment or insight, might one be easily caught in Paul Virilio's "vision machine"?

Explore today's visual world and culture, and reflect on the connection between 'seeing' and 'knowing' through more than 90 pieces of miniature sculptures by sculptors hailing from cities of Beijing, Taipei, Tokyo and Singapore.
